

Shelburne Street Safety Map

What this shows

- 2021-2025 crash locations and injury counts in the Shelburne/Fairmount/Shaker/Warrensville corridor.
- School anchors, parks, athletic fields, library access, and everyday destinations within about a half-mile.
- Focused route buttons show likely child travel paths through high-stress crossings.

How to read it

- Bigger red circles mean more crashes at that summary location.
- Chesterton is shown as a zero-crash comparison during this data window.
- Click pins, routes, and block cards in the interactive version.

Shelburne Street Safety Map

- **What this shows:** 2021-2025 crash locations, injury counts, school anchors, and child destinations around Shelburne.
- **Why it matters:** Children need to cross or move near high-crash streets to reach schools, parks, fields, library, and errands.
- **How to read it:** Red circles are crash locations; red bands summarize corridors; green labels mark schools, parks, fields, and everyday destinations.

KEY CONTEXT

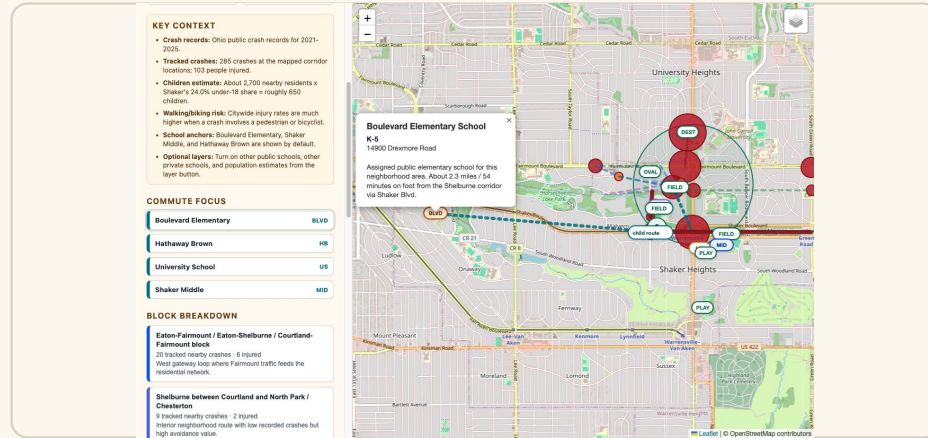

- **Crash records:** Ohio public crash records for 2021-2025.
- **Tracked crashes:** 285 crashes at the mapped corridor locations; 103 people injured.
- **Children estimate:** About 2,700 nearby residents x Shaker's 24.0% under-18 share = roughly 650 children.
- **Walking/biking risk:** Citywide injury rates are much higher when a crash involves a pedestrian or bicyclist.
- **School anchors:** Boulevard Elementary, Shaker Middle, and Hathaway Brown are shown by default.
- **Optional layers:** Turn on other public schools, other private schools, and population estimates from the layer button.

Focused School Routes

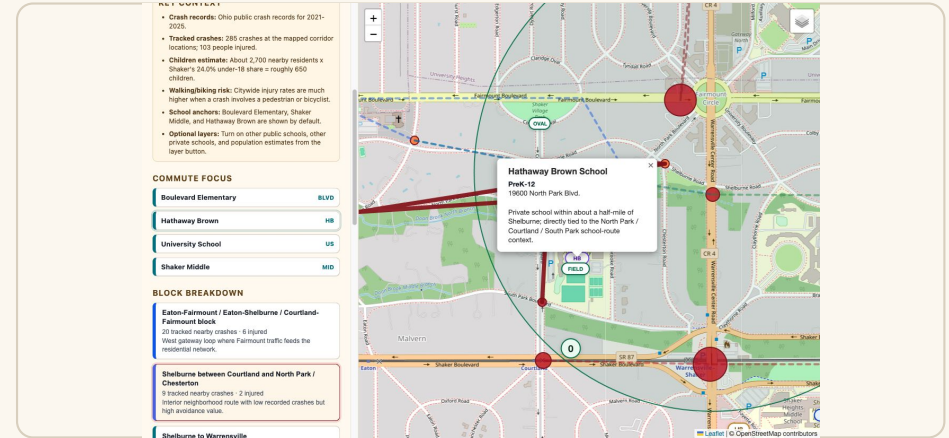

Each view turns on one simple route focus so the map is easier to explain in conversation.

Boulevard Elementary

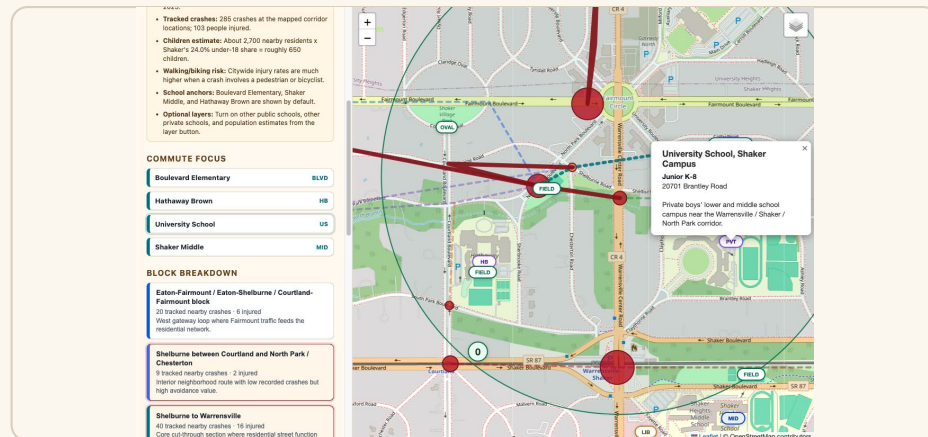

Assigned elementary school context; route focus shows east-west movement across the corridor.

Hathaway Brown

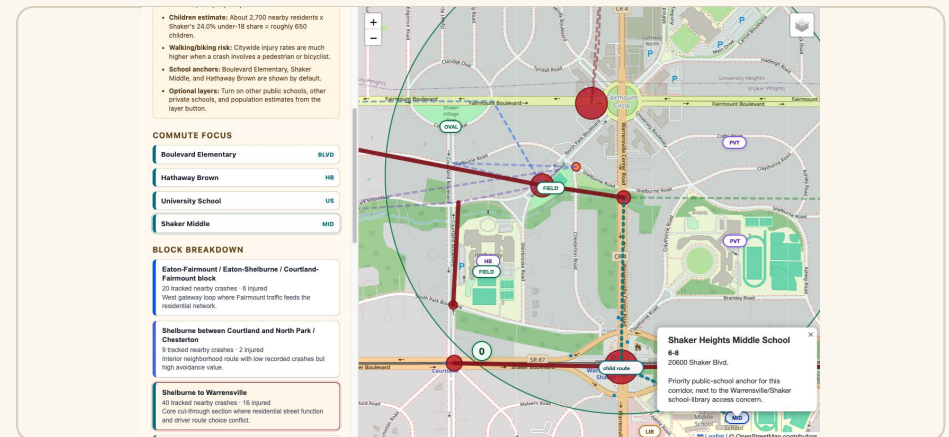

Private school and athletic-field destination near Courtland/South Park/Fairmount movement.

University School

Private school destination east of Warrensville; route focus crosses the same high-stress spine.

Shaker Middle School

Middle-school and library area; the map can be used to discuss pickup, bike, and pedestrian conflicts.
